

# ACCELERATE YOUR radiology career

**RIS**  
RADIOLOGY AND IMAGING SPECIALISTS

## WHY RIS?

Our expanding team of radiologists represents cutting-edge capabilities within the subspecialties of body, breast, musculoskeletal, neuroradiology, nuclear medicine and vascular/interventional services. We work with the most advanced imaging equipment and software in our state-of-the-art vascular and interventional suite. We offer specialized programs in PET/CT, cardiac imaging, prostate MRI and breast MRI. We work closely with our referring clinicians to make sure our service lines meet the need of the communities we work in.

Our vascular team is known nationally for their leadership in the area of limb salvage.

## **A CAREER WITH RIS OFFERS:**

Highly competitive salary and bonus structure

- Full benefits package including CME stipend

RADIOLOGY AND IMAGING SPECIALISTS

# JOIN CENTRAL FLORIDA'S leading radiology team!

With an average annual temperature of 74 degrees, a vibrant and growing community, and easy access to major metropolitan centers like Orlando and Tampa, central Florida offers an excellent mix of culture and lifestyle for working professionals. It is also home to Radiology & Imaging Specialists, the premier local physician-owned radiology group for more than 50 years.

We are the region's fastest growing radiology team, with 4 outpatient imaging centers (including a dedicated women's center), and providing service to seven area hospitals, two multispecialty clinics and four additional outpatient centers. Our team includes a vascular surgeon and a pain management specialist, and we perform many interventional services at our own OBL/ASC in Lakeland.

## Living in Polk County

Just 35 miles east of Tampa and 55 miles southwest of Orlando, Lakeland offers easy access to the best of Florida's culture, attraction, entertainment and arts. Polk County itself is home to many museums and theaters, as well as the nation's largest single-campus collection of Frank Lloyd Wright architecture. We are known as one of the most diverse economies in Florida, with state-of-the-art healthcare, a half dozen institutions of higher learning and a vibrant, pedestrian-friendly downtown area.

## EXPANDING INFLUENCE

While our practice-owned outpatient and surgical centers are located in Polk and Hillsborough counties, we have recently expanded to Florida's west coast, now serving four Manatee Diagnostic Centers in Bradenton, Arcadia and Parrish as well as Manatee Memorial Hospital and Lakewood Ranch Medical Center.

Our commitment to the communities we serve is strong, and our vision—to be recognized as the most respected and trusted physician-owned radiology practice in these communities—is realized each and every day.
